## Crear y configurar cuentas de usuario.

The screenshot shows the Microsoft Azure portal's 'Create new user' interface. The 'User principal name' field contains 'az104-user1' followed by '@' and 'raul6544.onmicrosoft.c...'. Below it, there's a note about domain listing and a link to learn more. The 'Mail nickname' field is set to 'az104-user1' with a checked checkbox for 'Derive from user principal name'. The 'Display name' field is also 'az104-user1'. The 'Password' field shows a masked password '\*\*\*\*\*' with an 'Auto-generate password' checkbox checked. The 'Account enabled' checkbox is checked. The 'Basics' tab is selected at the top.

Buscamos y seleccionamos **Microsoft Entra ID**. Microsoft Entra ID es la solución de administración de identidades y acceso basada en la nube de Azure.

En la hoja **Administrar**, seleccionamos **Usuarios** y, a continuación, en la lista desplegable **Nuevo usuario**, seleccionamos **Crear nuevo usuario**.

The screenshot shows the 'All groups' view in the Microsoft Entra admin center. A single group, 'IT LAB ADMINISTRATORS', is listed. The table includes columns for Name, Object Id, Group type, Membership type, Email, and Source. The group is a Security group assigned via Cloud.

Name	Object Id	Group type	Membership type	Email	Source
IT LAB ADMINISTRATORS	71a42ab1-0e31-4ced-9ef3-4461e43943d8	Security	Assigned		Cloud

Comprobamos que el grupo se ha creado.
